I am from the Rohingya community in Myanmar and grew up in a big family. My father was a farmer and fisherman. We fled because of the genocide of Rohingya's in Myanmar.

I am a positive person and can inspire people and make them laugh. I like to learn, at home I read a lot of the Burmese literature. My ambition is to become a politician, equal rights for all people are very important for me.

About me

I come from Dera'a in Syria. Because of the war we had to move many times. I was not able to go to school that much, I think I lost two years.

Before we came to Germany we lived in a refugee camp in Libanon, from there we moved to Turkey.

I love to do outdoor work, if there is work in the garden, gardening the flowers in the hotel. I am looking for a part time job so I can finish high school in the evenings.

Because of the winter weather in Germany I think I can bring joy to people by being a waitress, receiving them with a smile and seeing them enjoy the environment I created.

About myself

I love needlework, I have been doing it my whole life, that is why I studied textiles, embroidery in Damascus. We had to flee to Tripoli in Libanon, where we were for 3 years and I worked with local partners in embroidery and as a caretaker for children in the refugee camp. Our family is in Germany now for 6 months.

With my knowledge of textiles and my experience of working in teams I can be very useful, especially because of the socio-emotional experiences of the last years.

I can encourage people and help the team to work in an adaptative way.

About me

I recently graduated from hotel school and I feel passionate about working in tourism, hotels and bars.

We had to leave Rwanda when I was two years old. First, we went to Tanzania. My family has been traveling through Africa since then. In the refugee camps I always supported the cooks and it makes me happy to see people enjoy their food.

Finally, we came to Frankfurt where we are for eight years now. I am very happy I still live with my father, mother and brother. Here in Germany I was lucky to do my high school education and higher vocational education.
